

CHEK 1.2m Wide x 5mm Thick, Black

Product SKU:	1001822
Material:	SBR/NR
Hardness:	65 ShA
Colour:	Black
Length:	1000mm
Width:	1200mm
Thickness:	5mm
Form:	Roll
Condition:	Dry
Operating Temperature Range:	-10°C to 70°C

Polymax CHEK rubber matting, a durable flooring solution featuring a premium checker plate pattern with excellent anti-slip and anti-fatigue properties, perfect for industrial, commercial, and domestic use. Available in multiple colors and customisable lengths, it adapts seamlessly to any environment, ensuring safety and comfort wherever needed.

Key Features:

The Polymax CHEK rubber matting is your ultimate solution for durable and versatile flooring. Designed with a premium checker plate pattern, this hard-wearing rubber flooring offers top-notch anti-slip properties, ensuring safety in any environment. The matting not only insulates against cold concrete floors but also provides exceptional anti-fatigue qualities, enhancing comfort for those who spend extended periods standing. With improved tear strength and UV stabilisation, the Polymax CHEK rubber matting is built to withstand the rigours of industrial, commercial, and domestic use.

Available in a range of colours including Black, Grey, and Red, this rubber flooring can seamlessly blend with any company colours or interior décor. The convenient rolls can be cut to your desired length, making it adaptable for various applications—from garage floor matting to large rubber floor mats for sheds or patios.

Applications:

Anti-Slip: Perfect for environments that require enhanced safety, such as kitchens, workshops, and retail spaces.

Economy Range: A cost-effective flooring solution that doesn't compromise on quality.

Hospitality/Retail: Create a welcoming and safe atmosphere for customers and staff alike.

Cable Protection: Protect cables and prevent tripping hazards in high-traffic areas.

Car: Excellent for use as a rubber car mat, in garages, or as a garage floor liner to protect underlying surfaces.
