Thickness:	3mm
Full Roll length:	10m
Sold by:	Linear Metre
Form:	Roll
Condition:	Dry, Oily
Operating Temperature Range:	-10°C to 70°C

Enhance your space with the Polymax DIAMAX rubber matting, featuring a durable and anti-slip design perfect for high-traffic areas. Available in classic black, it offers comfort and safety while boosting productivity, making it ideal for industrial, commercial, and domestic settings.

Key Features:

The Polymax DIAMAX rubber matting is an innovative flooring solution designed for durability and aesthetic appeal. With its unique deeper design grooves, this flooring not only enhances the visual appeal of any space but also offers exceptional functionality. The raised anti-slip surface ensures safety, making it an ideal choice for high-traffic areas.

Similar to the popular Polymax CHEK, the DIAMAX is suitable for a variety of environments including industrial, commercial, and domestic settings. Its anti-fatigue properties provide unparalleled comfort underfoot, reducing the strain on employees during long hours of standing. This feature can boost productivity by up to 10%, making it a smart investment for any workplace.

Available in a classic Black colour, the DIAMAX rubber matting comes in extra-wide rolls measuring 1.5 metres in width and lengths of up to 10 metres. Choose between 3mm or 5mm Thickness options, with the more robust 5mm variant offering superior wear resistance. Rolls can be conveniently cut to fit your specific requirements, allowing for flexible installation in any setting.

Applications:

Anti-Slip: The raised surface design provides excellent traction, making it suitable for garages, workshops, and other areas prone to spills.

Economy Range: A cost-effective solution for those seeking quality without compromise, ideal for budget-conscious projects.

Car and Van: Perfect for use as a rubber car mat or garage floor matting, providing a protective and easy-to-clean

Garage and Shed Floors: An excellent choice for garage floor flooring or as a floor for shed, ensuring durability and insulation.
