Polymax CIRCA LOK, the ultimate solution for your flooring needs. Designed with a studded surface and an innovative interlocking design, these interlocking floor mats offer a perfect blend of functionality and style. Ideal for large areas such as workplaces, garages, assembly areas, and laboratories, CIRCA LOK is your go-to choice for both permanent and temporary applications.

Key Features:

Slip Resistant Properties: Ensures safety in high-traffic areas, making it an excellent choice for garage flooring and hospitality/retail spaces.

Shock Absorption: The PVC material effectively absorbs shock and noise, creating a comfortable environment for gym and garage flooring.

Weather Resistant: Withstands extreme temperatures and various weather conditions, making it ideal for concrete garage flooring.

Chemical Resistance: Resists most acids and solvents, ensuring durability in challenging environments.

Easy Installation: The interlocking design allows for quick and hassle-free fitting, perfect for garage floor tiling and garage floor covering.

Applications:

Anti-Slip: Perfect for busy work environments and showrooms where safety is paramount.

Hospitality/Retail: Enhances the look and feel of customer-facing areas while providing a safe, durable flooring solution.

Showroom: Offers a professional and polished appearance, ideal for showcasing products in a safe and attractive manner.
