

Mapei G19 Two part PU Adhesive 10kg

Product SKU:	3043173
Colour:	Beige
Weight:	10 Kg
Operating Temperature Range:	-40°C to 100°C

Mapei G19 is a premium, epoxy-based grout that offers exceptional adhesion, durability, and stain resistance, making it ideal for both residential and commercial projects. Its versatile applications include tile grouting in wet areas, high-traffic locations, and industrial settings, all while providing a seamless beige finish that complements various tile designs.

Key Features:

Mapei G19 is a premium, epoxy-based grout designed for a variety of demanding applications. This high-performance grout offers exceptional adhesion and durability, making it a top choice for both residential and commercial projects.

Excellent Adhesion: Provides a strong bond to ceramic, porcelain, and natural stone tiles, ensuring long-lasting results.

Stain Resistance: Formulated to resist staining and discolouration, keeping your grout looking pristine over time.

Waterproof Performance: Ideal for wet areas, offering reliable protection against moisture and water damage.

Durable Composition: Designed to withstand heavy foot traffic and mechanical wear, making it perfect for high-traffic areas.

Weatherproofing: Effective for exterior installations, ensuring strong protection against the elements.

Flexible Application: Works well in expansion joints, accommodating temperature fluctuations and vibrations.

Applications:

Mapei G19 is a versatile solution that excels in various grouting scenarios due to its robust properties. Here are some of the common applications:

Tile Grouting: Perfect for grouting ceramic, porcelain, and natural stone tiles in diverse settings, including floors, walls, and ceilings.

Wet Areas: An ideal choice for bathrooms, kitchens, swimming pools, and shower areas, ensuring a water-resistant seal.

High-traffic Areas: Its durable nature makes it suitable for locations with heavy foot traffic, providing long-lasting performance.

Industrial Applications: Efficiently used in factories and food processing areas, where resistance to chemicals is crucial.

Exterior Installations: Excellent for outdoor projects such as terraces, balconies, and facades, weatherproofing.
