

Mapei G19 Two part PU Adhesive 5kg

Product SKU:	3043174
Weight:	5 Kg
Colour:	Beige
Operating Temperature Range:	-40°C to 100°C

Mapei G19 is a premium, epoxy-based grout that offers exceptional adhesion, durability, and stain resistance, making it ideal for both residential and commercial projects. Its versatile applications include tile grouting in wet areas, high-traffic locations, and industrial settings, all while providing a seamless beige finish that complements various tile designs.

Key Features:

High-Performance Formula: Mapei G19 is an epoxy-based grout that delivers exceptional adhesion and durability, making it perfect for various applications.

Stain and Chemical Resistance: This grout is engineered to resist staining and discolouration, ensuring that your installations maintain their aesthetic appeal over time.

Water-Resistant: Ideal for wet environments, Mapei G19 provides reliable water resistance, ensuring longevity in moisture-prone areas.

Versatile Colour: Available in an attractive beige shade, it complements a wide range of tiles, enhancing the overall look of your installations.

Durable Composition: Designed to withstand high foot traffic and mechanical wear, making it suitable for both residential and commercial settings.

Applications:

Mapei G19 is a versatile, high-performance grout with a wide array of applications:

Tile Grouting: Perfect for grouting ceramic, porcelain, and natural stone tiles on floors, walls, and ceilings in any setting.

Wet Areas: Ideal for use in moisture-rich environments such as bathrooms, kitchens, swimming pools, and shower areas, providing outstanding water resistance.

High-Traffic Areas: Its robust formulation makes it suitable for areas subjected to heavy foot traffic, ensuring long-lasting results and reduced maintenance.

Industrial Applications: Suitable for industrial settings where resistance to chemicals, oils, and stains is crucial, including factories and food processing areas.

Although the technical details and recommendations made correspond to the best of our knowledge and experience, all the above information must, in every case, be taken as merely indicative and subject to confirmation after long-term practical application; for this reason, anyone who intends to use Polymax products must ensure beforehand that it is suitable for the envisaged application. In every case, the user alone is fully responsible for any consequences deriving from the use of the product.
