

25m Length, 8mm Thick Red and White Plastic Chain

Product SKU:	1122120
Material:	Polypropylene (PP)
Colour:	Red/White
Length:	25000mm
Diameter:	8mm
Weight:	2.4kg

A versatile and effective component for safety barrier systems, ideal for both indoor and outdoor use. Whether used for temporary barriers, hazardous zone marking, or suspending signs and banners, this durable plastic chain provides a reliable and professional solution for safety management.

Enhanced Safety & Visibility

Designed to clearly define restricted areas, the Polymax plastic chain helps prevent accidents by improving boundary recognition. Its bold red and white color pattern maximizes visibility, ensuring workers, visitors, and pedestrians can easily identify safety zones.

Key Features

Durable & Versatile: Ideal for safety barriers, perimeter control, and hanging signage.

High Visibility: Bright red and white coloring ensures clear hazard recognition.

Flexible Usage: Suitable for both temporary and semi-permanent applications.

Lightweight & Easy to Install: Allows quick setup in warehouses, construction sites, event venues, and public spaces.
