

25m Length, 8mm Thick Yellow and Black Plastic Chain

Product SKU:	1122121
Material:	Polyethylene (PE)
Colour:	Black-Yellow
Length:	25000mm
Diameter:	8mm
Weight:	2.4kg

A versatile and effective safety barrier component, ideal for both indoor and outdoor applications. Whether establishing temporary barriers, marking hazardous zones, or suspending signs and banners, this durable plastic chain provides a reliable and professional solution for safety management.

Enhanced Safety & Visibility

Engineered to clearly define restricted areas, the Polymax plastic chain helps prevent accidents by ensuring high visibility. Its bold black and yellow color pattern enhances awareness, allowing workers, visitors, and pedestrians to easily recognize boundaries and safety zones.

Key Features

Durable & Versatile: Ideal for safety barriers, perimeter control, and signage support.

High Visibility: Striking black and yellow coloring ensures immediate hazard recognition.

Flexible Usage: Suitable for both temporary and semi-permanent safety applications.

Lightweight & Easy to Install: Designed for quick setup in warehouses, construction sites, event venues, and public spaces.
