

Product : 360° Hemisphere Mirror

The 360° Hemisphere Mirror is a lightweight panoramic surveillance mirror designed to provide complete visibility across large indoor areas. It delivers a wide-angle viewing field that helps eliminate blind spots, making it an ideal solution for security, safety, and operational monitoring in commercial, retail, and industrial environments.

Key Benefits:

360° Panoramic Visibility – Provides a complete wide-angle view of surrounding areas.

Lightweight Construction – Manufactured from durable plastic materials, making installation simple and efficient.

Flexible Installation Options – Can be mounted to ceilings, walls, or poles depending on site requirements.

Ideal for Indoor Environments – Suitable for shops, shopping centres, warehouses, industrial facilities, offices, and public buildings.

Applications:

Warehouse Safety – Improved visibility to prevent collisions involving forklifts and pedestrians.

Industrial Facilities – Provides comprehensive monitoring of production areas, storage zones, and operational blind spots.

Retail Security and Loss Prevention – Deters theft through improved surveillance coverage.

Shopping Centres and Public Spaces – Enhances visibility in halls, corridors, entrances, and communal areas where monitoring is required.

Office Buildings – Improves visibility and helps prevent pedestrian collisions.

Commercial Facilities – Improves oversight of high-traffic areas, reception spaces, and access routes.

General Security Monitoring – Supports security personnel by providing a view across large indoor environments.

Technical Data :

SKU	Diameter (mm)	Weight (Kg)	Viewing Distance (mtr)	Material Thickness (mm)
1122285	600	0.7	9	2
1122286	1000	2.8	18	3
