

1m Length Self Adhesive Foam Edge Three Quarter Round 1000mm Length x 150mm Diameter

Product SKU:	1122142
Material:	Ethylene-Vinyl Acetate (EVA)
Colour:	Black-Yellow
Length:	1000mm
Diameter:	150mm
Weight:	0.5kg

Ensure workspace safety with Polymax Corner Protectors, designed to shield personnel and equipment in high-traffic environments. Perfect for covering angled edges and corners, these protectors reduce the risk of accidental collisions while providing long-lasting durability. Featuring a high-visibility black and yellow design, they are resistant to acids and grease, ensuring optimal performance in demanding settings.

Enhanced Protection & Easy Installation

The Polymax Corner Protectors help prevent injuries and equipment damage caused by sharp or protruding edges. Their cylindrical shape allows for quick and secure installation, offering essential safety in warehouses, construction sites, car parks, shop floors, and more. With their striking yellow color, they remain easily visible, helping to minimize accidents in busy areas.

Versatile Applications

Ideal for use in:

Warehouses: Protect against accidental bumps in busy areas.

Construction Sites: Safeguard equipment and personnel from sharp edges.

Car Parks: Prevent vehicle damage and reduce injury risks.

Shop Floors: Keep customers and staff safe from protruding edges.

Key Features

EVA Material: Highly durable and resistant to acid and grease for extended use.

High Visibility: Bright yellow color ensures clear hazard identification.

Cylindrical Shape: Designed for optimal coverage of angled edges and corners.

Convenient Dimensions: 1000mm length, 150mm diameter, and 75 x 75mm opening size for easy application.
