

1m Length Self Adhesive Foam Edge Three Quarter Round 1000mm Length x 100mm Diameter

Product SKU:	1122143
Material:	Ethylene-Vinyl Acetate (EVA)
Colour:	Black-Yellow
Length:	1000mm
Diameter:	100mm
Weight:	0.2kg

Ensure superior protection for edges and corners in high-traffic environments with the Polymax Self-Adhesive Foam Edge Protector. Designed for quick and hassle-free installation, this 1-meter long, 100mm diameter foam protector effectively reduces the risk of accidental bumps and collisions, safeguarding equipment and personnel.

Reliable & Highly Visible Design

Constructed from durable foam material, this edge protector offers excellent cushioning to prevent damage and injury. Its bright yellow color enhances visibility, making it easy to spot in busy workplaces such as warehouses, factories, construction sites, and public spaces.

Versatile Applications

Ideal for use in:

Warehouses: Protect equipment and shelving from accidental impacts in high-traffic areas.

Factory Floors: Safeguard machinery and workers from sharp edges and corners.

Construction Sites: Cover exposed edges and surfaces to minimize injury risks.

Public Spaces: Prevent accidents by marking sharp corners in schools, offices, or retail settings.

Key Features

Self-Adhesive: Easy to apply with a secure backing—no tools required.

Durable Foam Construction: Provides superior impact resistance and cushioning.

High Visibility: Bright yellow design ensures clear hazard identification.

Optimal Dimensions: 1000mm length, 100mm diameter, offering ample coverage for edges and corners.
