Fitting and Installation Advice

Delivery

Polymax use a trusted network of carriers that specialise in pallet deliveries across the UK. When organising delivery please consider the weight and size of the product. In order for our delivery drivers to unload your order safely, they will need to be able to unpack on level tarmac or concrete. Please ensure you can securely move the goods to your designated installation area.

Acclimatise

Rolls and mats must be removed from packaging (product may be stacked but must be laid flat) and allowed to acclimatise in the room where the installation is to take place. Room temperature should be kept between 18°C- 29°C (65°F- 85°F) with a relative humidity of 50%.

If you are not happy with any aspect of the product prior to installation, please call our sales team on 01420 558123 as we cannot accept any liability for rolls, tiles or mats that have been cut or laid down with adhesive.

Installing Your New Flooring

Flooring installation is a specialist job and we always recommend hiring a professional floor fitter. At The National Institute of Carpet and Floor Layers you'll be able to find a fully-qualified fitter near you - www.nicftd.org.uk.

What is the Best Adhesive?

Using the correct adhesive is crucial to achieve the best quality finish for your new flooring. Please ensure you follow the manufacturer's instructions exactly. For further recommendations read our Flooring Adhesive Blog and Flooring Guide on our website. The following surfaces will require:

- 1) Dry and flat surfaces | MAPEI VS90 Acrylic
- 2) Flat surfaces with contact to water or moisture | MAPEI G19/G20 Two Part PU
- 3) Flooring for vertical applications, walls & stairs | MAPEI VZ Contact Adhesive

View our full range of adhesives, primers, screed, levelling and accessories on page 46.

Free Samples

We offer free samples on a large selection of our flooring products. You can request a sample through the product page on our website or by calling a member of our sales team.

Please be aware that samples may be taken from 'secondary' stock and are not 100% representative of the finished material. These can include slight differences in colour, texture or shape, and should be considered for guidance purposes only.

FLEXI Anti-Fatigue Mat

Make life easier and safer for your workforce

- Heavy-duty, flexible rubber with high tensile strength
- Raised, studded finish reduces operator fatigue by providing additional cushioning underfoot
- Ideal for individual work stations that requires the operator to be “on their feet” for an extended
- Sloped edges helps prevent tripping and ensure maximum safety in high-risk environments period of time

Article Number	Tile Size	Price
1001368	1.2m x 0.9m x 15mm (11kg)	£22.99
1001370	0.9m x 0.6m x 16mm (8kg)	£18.85
1001399	0.31m x 0.61m x 12mm (5.4kg)	£17.99

FIRMA Anti-Fatigue Mat

Prevent worker fatigue and increase productivity

- Moulded bevelled edges help reduce trip hazards in high-risk areas
- Open-holed design provides excellent drainage for areas with increased risk of spillages and moisture build up
- Cushioned rubber surface significantly reduces operator fatigue
- Available in an oil-resistant terracotta finish ideal for restaurants and kitchens
- Perfect for entrances, walk ways or wash down areas

Article Number	Tile Size	Colour	Price
1001366	1.5m x 0.915m x 15mm (11kg)	Black	£22.99
1001440	1.5m x 0.915m x 15mm (11kg)	Red	£32.00

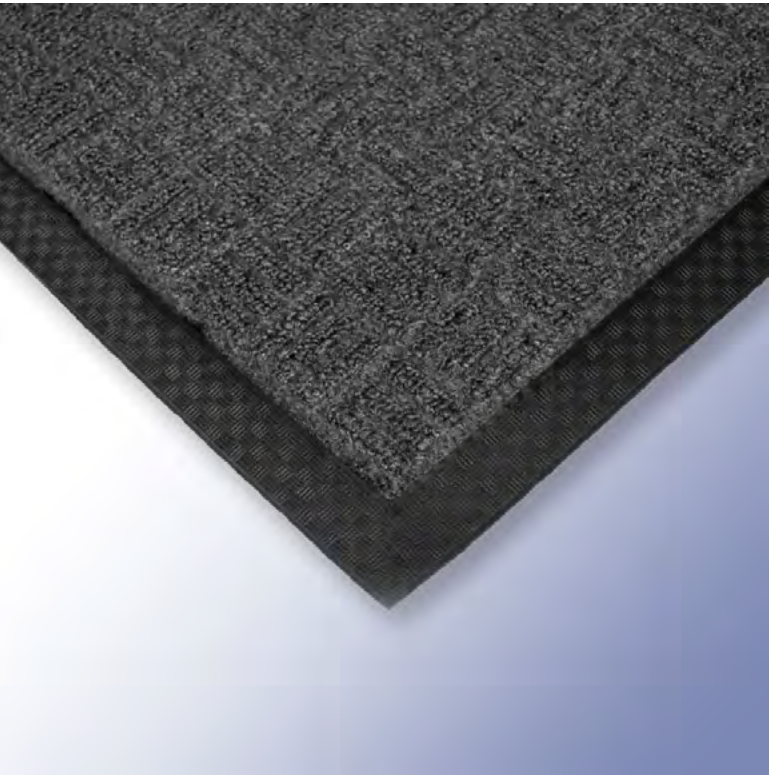

Polymax Entrance Mats

Professional looking protection at home or in the office

- Made from extremely tough combination of polypropylene carpet and rubber
- Non-fading, 300 gsm thick carpeted surface with anti-slip studded rubber base prevents the mats from sliding on both carpeted and smooth areas
- Ideal for both office and home use thanks to their professional look and feel
- Innovative raised twist carpet pile effectively traps moisture and dirt
- Anti-trip sloped edges for improved safety in high-risk areas
- Available in two colours: Blue or grey

Article Number	1001406
Tile Size	0.6m x 0.4m x 13mm (2kg)
Price	£16.50

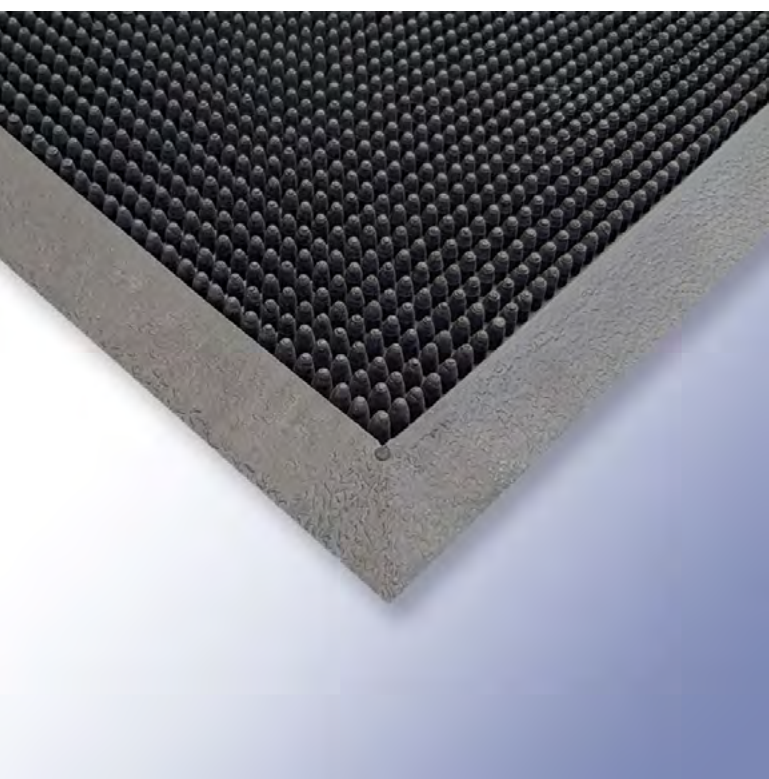

CONA Entrance Mat

Pinned surface provides superior grip

- Multiple rubber pinned surface provides superior grip and an easy to maintain finish
- Durable, heavy-duty composite is ideal for heavy traffic use or entrance areas with high footfall
- Made from hard-wearing Natural rubber (NR) and Styrene Butadiene (SBR) rubber for increased life expectancy
- Anti-trip sloped edges for additional safety
- Ridged base provides increased grip and prevents mat from slipping on low-friction surfaces

Article Number	Tile Size	Price
1001370	1.5m x 0.9m x 13mm (13kg)	£24.99
1001371	1.8m x 0.9m x 10mm (12kg)	£28.49

Gym and Leisure Flooring

Our unrivalled range of high-quality gym and leisure flooring can help kit out your facility from weight room to pool. Trusted by leading leisure franchises across Europe, we have everything you need to ensure the safety and comfort of gym goers, as well as providing shock absorbent surface protection for that expensive gym equipment.

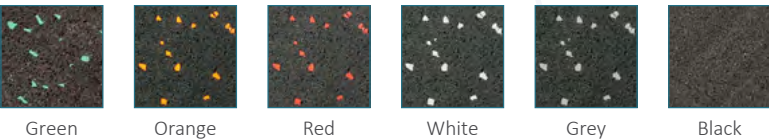

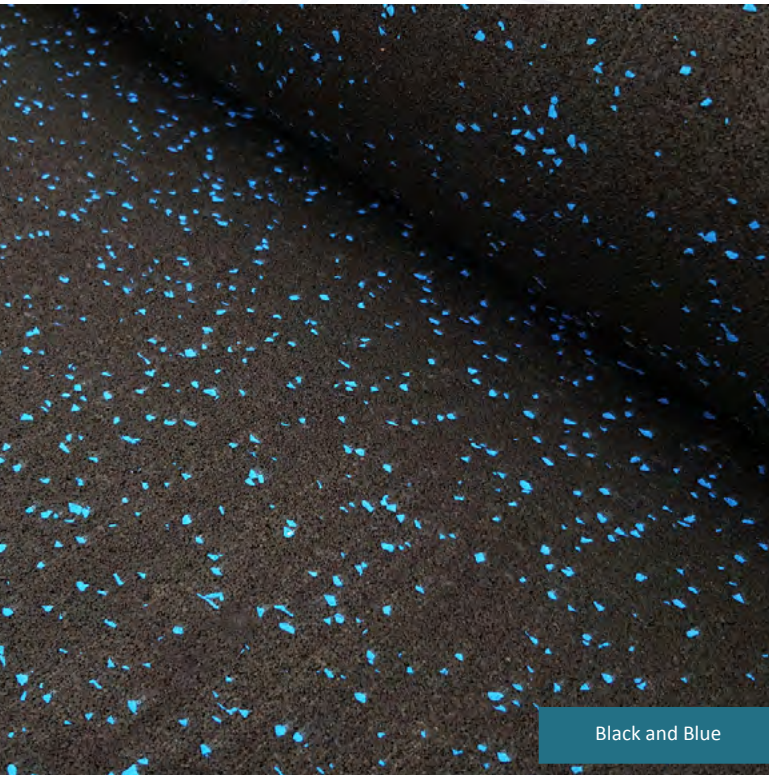

GALAXY Gym Matting Roll

Durable rubber matting for ultimate comfort and protection

- Aesthetically pleasing crumb flooring designed to ease the strain of exercise and physical training
Soft and durable rubber surface helps absorb shock, deaden noise and protect expensive gym equipment against impact damage
- Easy to maintain with Polymax Pro-long floor care kit designed to help your flooring last even longer
- Easy and quick installation, removal and storage
- Available in a range of colours and thicknesses to suit your requirements
- CE-marked and approved, slip resistant to EN 14041:2004 and fire rated to Efl

The Future of Fitness Starts With The Young People of Today

Since 2007 Archie has been applying his knowledge to help, shape, develop and improve the fitness in both himself and those around him. After opening CrossFit Chichester with his wife in 2014, he has been on a quest to help people improve their own health and fitness all the more, within the gym that they created.

Unknowingly, I began my fitness journey at just ten years old. I remember showing off my strength to my friends because I was so proud I could do five pull ups in a row. That feeling made me think anything was possible. I had the power to use my body to become fit and strong.

Growing up through my teens, the standard bench press and

pull-ups bar began to bore me. I started to look elsewhere for a fitness programme that integrated the whole body. From martial arts, home training routines, deadlift workouts or kettlebell drills. I found the things that fascinated me and kept on studying and learning. Another drive at this time, typical of being a teenager, was being someone who was always conscious of how 'lanky' they were. Sports such as surfing helped, because I became less aware of the way I looked and more focused on how my body could perform. It was a significant shift in self-acceptance that was beginning to develop in me. Something, all of us will eventually have at some point in our lives. After a while however, surfing was not competitive enough for me. So, I tried going back to the sport I'd grown up with, rugby, but it still wasn't enough. It didn't capture my fascination anymore.

It was only after taking my brother to a tiny gym on top of Portsdown hill where I discovered what I'd been looking for. A fitness regime that covered all the bases of athleticism. One where we developed strength and cardiovascular fitness. Where the movements required a high level of skill and flexibility. Where I was able to feel good, not about how my body looked but about what my body could do. That was the major difference – this routine allowed me to focus on developing my ability to become more athletic, rather than aesthetic.

“ We have more control over the effort we can put forth today, than the way our body may look in 6 to 12 months. ”

The training programme I discovered was called CrossFit.

Across the world, the fitness industry places emphasis on the aesthetics of exercise. The images, the plans, the goal is too focused on how your body looks. I certainly for a time felt that getting 'beach ready' was more important than 'life ready'. The frustrating aspect of this is that often leads to feelings of self-doubt, self-consciousness and envy. We have more control over the effort we can put forth today, than the way our body may look in 6 to 12 months.

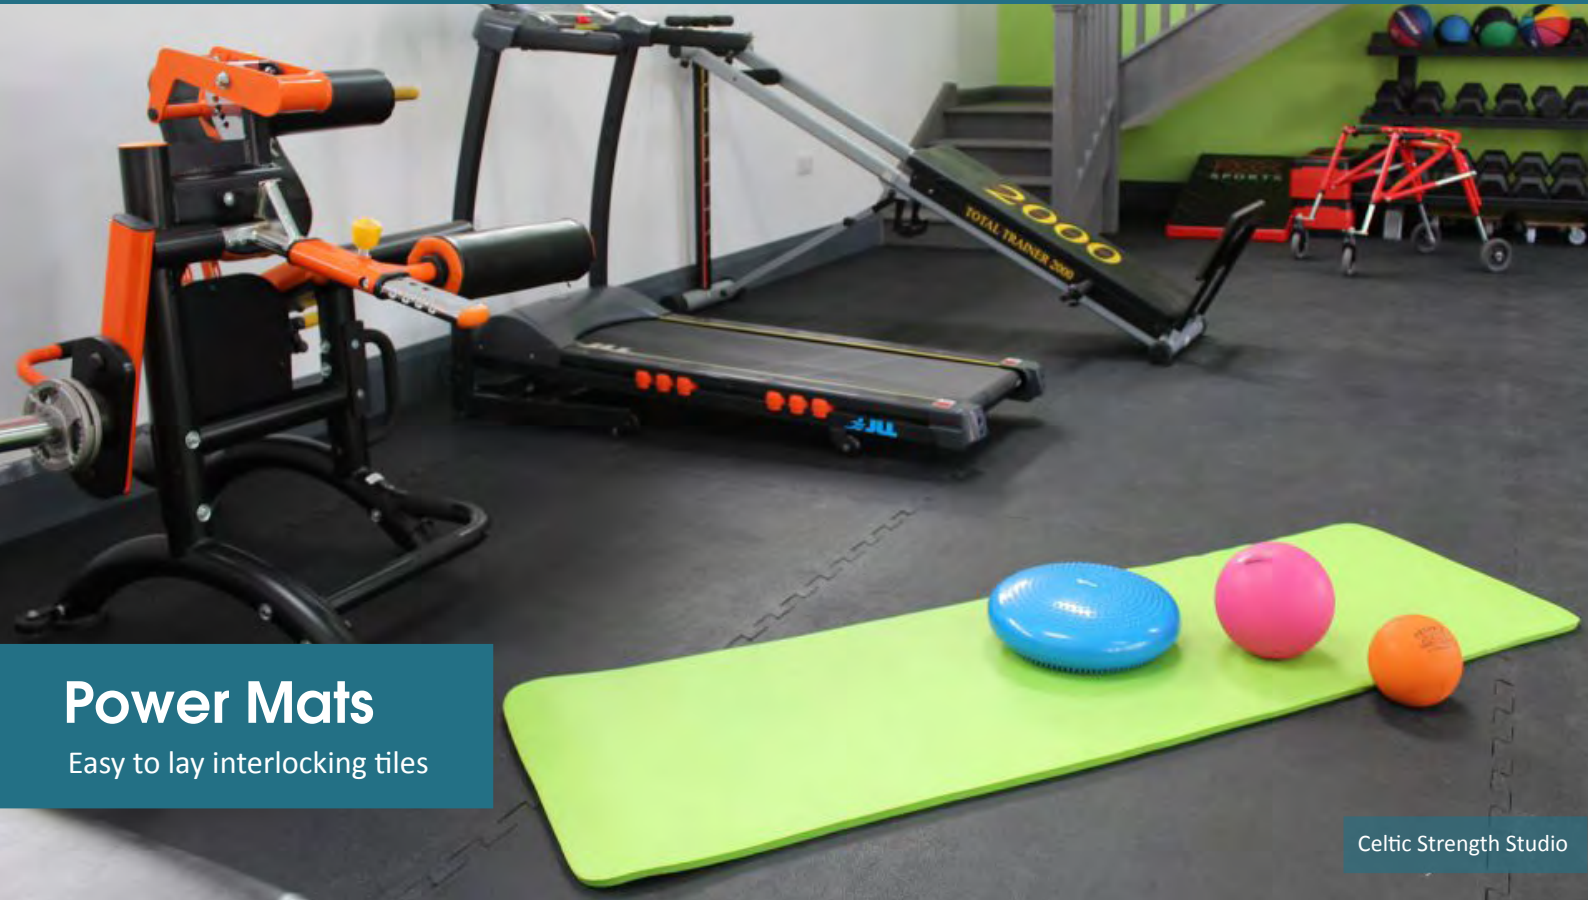

As a coach, some of the greatest transformations I've witnessed have taken place once the client focuses their performance by setting a specific athletic goal. For instance, running the London marathon, or to do an assisted pull-up. In this light, it's our belief at our gym that people would be more successfully athletic if they were encouraged to focus on their progression. Most people will experience comments about their appearance after 6 to 12 weeks of following a regular training program. Whereas, they might have noticed their strength increasing after just 1 to 2 weeks. Altering the intention whilst training at the gym has a real and measurable benefit, especially for young people.

For instance, our teens program is 50:50 mix of girls and boys. The girls often outlift the boys, due to being more coordinated and powerful. Up until the age of 13-14 years old, both girls and boys are on a level playing field when it comes to strength. CrossFit is also one of the few sports where men and women are paid the same in prize money. Girls and boys, who adopt these training practices early in their childhood also stand less chance of injury in other sports. It's important to remind yourself that there was a time, most likely before the age of 6, where you could squat bum to ankle and stay in that position for as long as you wanted. Try that now without assistance and you're part of the tiny proportion of westerners who can do that.

We believe in the positive impact coming to a supportive, encouraging and growth orientated environment at the gym will have on your day, week, month, year and life. Starting this practice early on will truly make a difference to your health. However, if like me you couldn't find the right programme to suit you, starting now is always going to be better than tomorrow.

Archie Cunningham
Head Coach
CrossFit Chichester

Power Mats

Easy to lay interlocking tiles

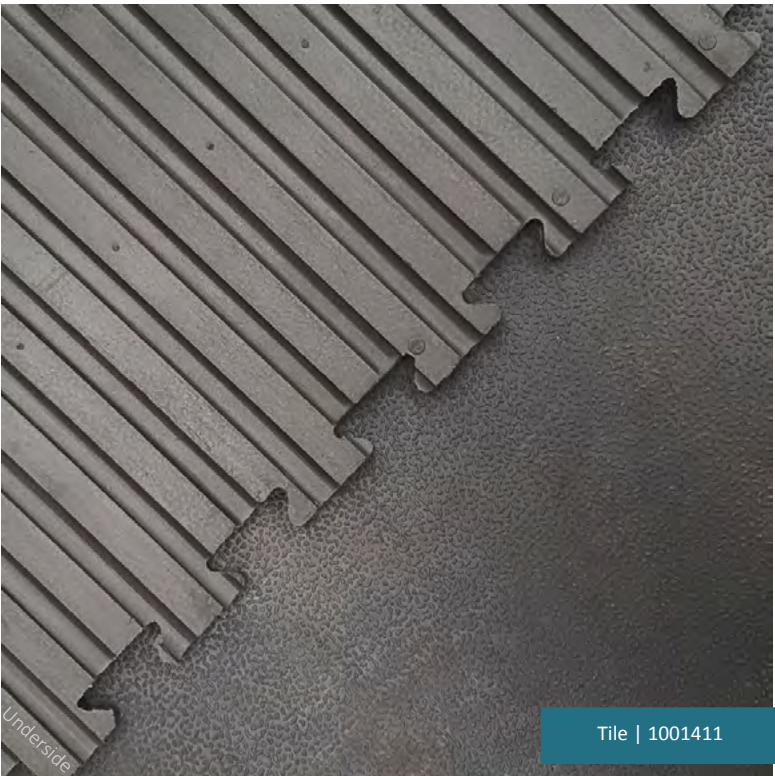

POWER Interlocking 1.8m x 1.2m Gym Mat

Greater coverage means greater protection

- Large mats with an easy interlocking system makes it simple to install and cover large areas such as weight rooms and fitness class rooms
- Non-slip design improves comfort and safety under foot
- Sweat and moisture repellent, makes it a hygienic alternative to traditional foam matting
- Shock absorbent rubber reduces noise levels and protects against heavy impacts

PRODUCT OVERVIEW

Our Chek PRO, slip resistant and flexible floor covering is available in 2mm thickness and 1m wide rolls, with a special R12 slip resistant embossing which provides excellent safety properties. It is compliant with the EN 649 norm (34 / 43) and suitable for transport and most commercial and industrial areas. It is an adapted solution for medium traffic applications where enhanced slip resistance, durability, hygiene and easy maintenance are required.

CHEK STD Matting Roll

Cost effective industrial floor defence

- Excellent all-round, hard-wearing, and economical flooring roll
- Premium anti-slip checker plate design with additional tear strength and UV stability
- Ideal insulation for cold concrete floors in an industrial, commercial or domestic setting
- Specialised anti-fatigue qualities provides additional comfort to increase staff productivity and reduce strain underfoot

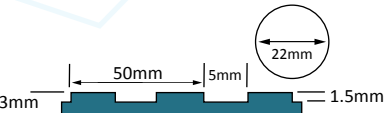

Article Number	Roll Size	Colour	Price (per LM)	
			1+	10+
1001820	10m x 1.5m x 3mm (7kg)	Black	£12.37	£8.55
1001822	10m x 1.2m x 5mm (9kg)	Black	£14.17	£10.90
1055086	10m x 1.4m x 3mm (6kg)	Black	£11.54	£8.00
1055232	10m x 1.4m x 3mm (6kg)	Grey	£18.37	£15.55

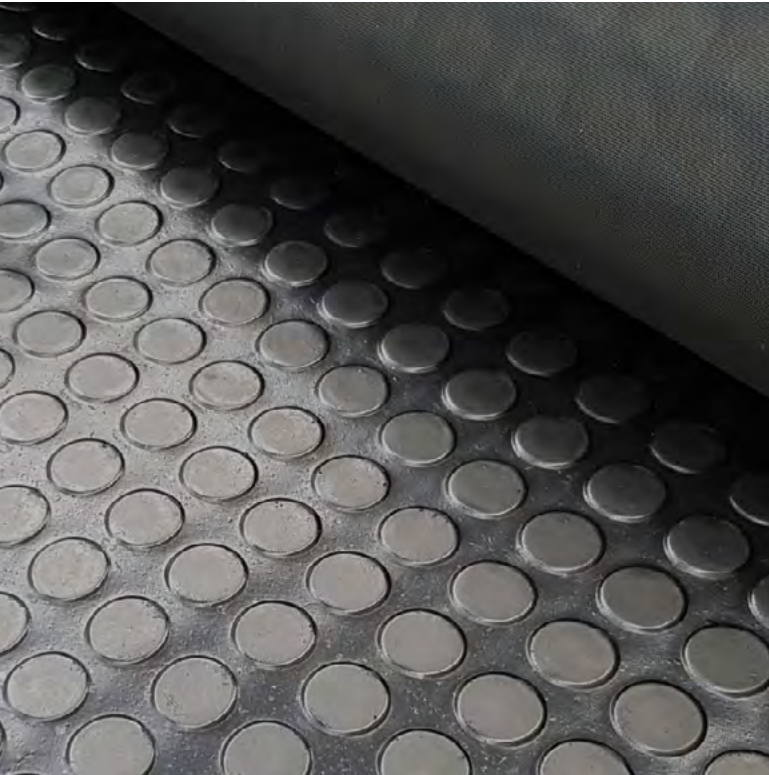

CIRCA STD Matting Roll

Practical and dependable studded matting

- Anti-slip and comfortable under foot
- Helps insulate from moisture, damp and reduce dust build up
- Aesthetically pleasing studded surface with increased grip and durability
- Ideal cost-effective alternative for covering large floor spaces

Article Number	Roll Size	Price (per LM)	
		1+	10+
1001373	10m x 1.2m x 3mm (5.2kg)	£12.87	£9.90

1001161	10m x 1.4m x 10mm (22kg)	£22.56	£17.35

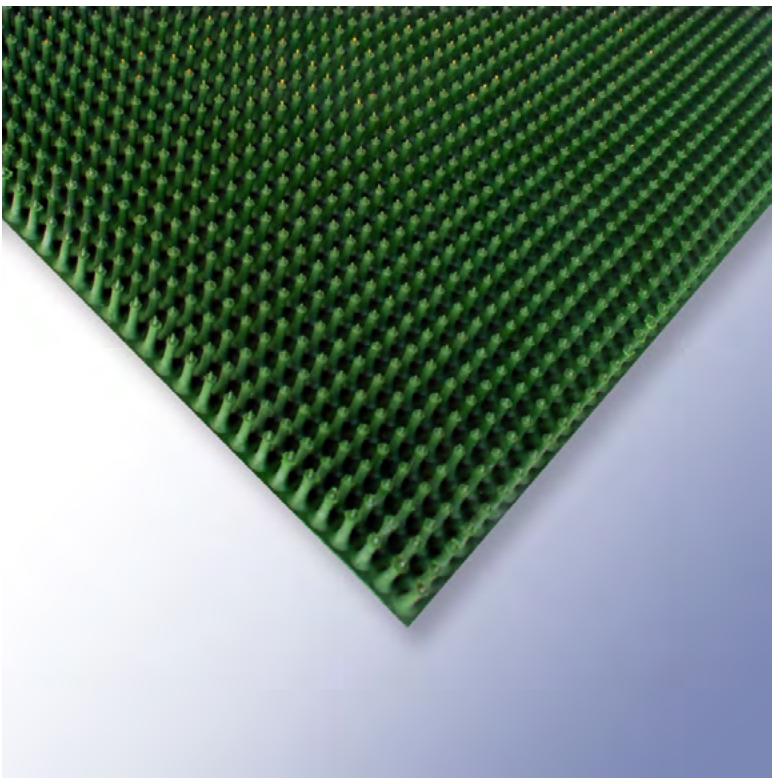

Polymax PIN Mat

Environmentally friendly pin matting

- Unique 'pin' shaped natural rubber stems provide increased strength, maximum grip and added tear resistance
- Eye-catching green finish made without the use of harmful petrol derivatives
- The environmentally friendly alternative, containing anti-oxidants which make it Ozone stabilised and UV resistant
- Cloth base gives additional slip-resistance when placed on low-friction surfaces

Article Number	1001188
Roll Size	450mm x 372.5mm x 20mm (4kg)
Price (per LM)	£6.50

Equestrian Stable Matting

Our specially designed equestrian stable mats are manufactured in our premium quality rubber to maintain the comfort of your horse and the owner’s peace of mind. A non-slip, hard-wearing surface is standard across all our stable mats ensuring maximum grip to help prevent unnecessary accidents. With a wide range of sizes and designs available you’ll be sure to find the ideal stable matting for you and your horse.

MAX MAT 6ft x 4ft Rubber Tile

Versatile, all-purpose stable matting

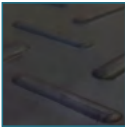

- Available with a morhic, studded or grid surface
- Ideal for use as bedding in horse stables, yard flooring, and horse boxes
- Specially designed, anti-slip surface provides maximum grip for both horse and rider
- Easy to clean and maintain, with sloped edges to help with drainage
- Thick, durable rubber acts as an anti-bacterial barrier, keeping your horse healthy all year round
- Simple to install and cost-effective alternative
- Two-years manufacturing defect guarantee

Article Number	Tile Size	Pattern	Price
MM002	1.83m x 1.22m x 16mm (38kg)	Morphic	£30.00
MM014	1.83m x 1.22m x 17mm (40kg)	Studded	£33.00
MM015	1.83m x 1.22m x 17mm (40kg)	Grid	£33.00
MM020	1.83m x 1.22m x 12mm (30kg)	Grid	£27.50

COBBLE Horse Trailer Roll

The safest way to transport your horses

- Made from hard-wearing Natural Rubber (NR)
- Effective and sturdy cobbled design provides a fantastic anti-slip top surface which also helps dampen vibrations in moving vehicles
- Ideal for use in horse boxes and transportation vehicles
- Easy to clean and maintain

Article Number	1001480
Roll Size	5m x 2m x 10mm (23kg)
Price (per LM)	£45.00

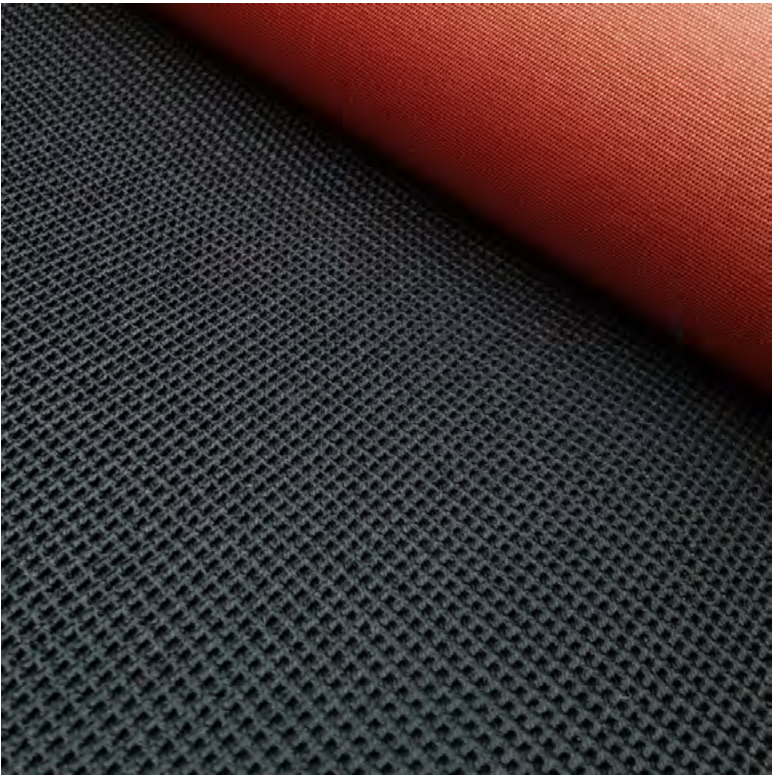

RAMP Extra Strength Matting

Maximum strength and tear resistance

- High-quality fabric backing makes this our strongest matting in the range
- Exceptional anti-tear properties with a high mechanical strength
- Clean studded finish offers excellent durability and attractive appearance
- Excellent non-slip characteristics
- Ideal for heavy footfall areas, stable yards and horse ramps
- Easy to clean and maintain

Article Number	Roll Size	Price per Metre	
		1+	10+
MM005	10m x 1.2m x 4.5mm (7.1kg)	£27.50	£25.00
MM006	10m x 1.5m x 4.5mm (8.8kg)	£29.25	£25.50

EVA Foam Closed Cell Sheet

Cushioned protection for stable walls

- Constructed from heavy density cushioned foam ideal for lining stables and horse boxes
- Easy to install and maintain with sizes compatible with most standard stables and boxes
- Entirely non-toxic, non-absorbent and does not retain moisture
- Help to reduce dust in the stable and minimise respiratory disorders
- Provides superior impact resistance to protect animals from injury
- Offers excellent sound and temperature insulation

Article Number	1058347
Tile Size	1.8m x 1.2m x 10mm (10kg)
Price	£21.00

Playground & Outdoor Matting

We create vibrant and colourful play environments using high-impact tiles and slip resistant grass matting to provide maximum, worry-free enjoyment. We strive to reduce risk of impact related injuries and encourage outside play. Our ground technicians and creative team work closely with our customers from design to installation in order to deliver a quality product of stunning visual impact and safety.

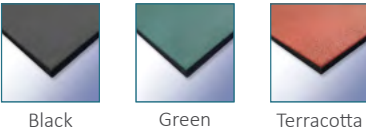

PLAY Safety Tiles

The safest way for children to play

- Quality, high-impact rubber tiles tested for critical fall height by independent laboratory to keep children safer and reduce risk of injuries (RAPRA certified)
- Available in standard polymer or premium coloured EPDM polymer with increased UV protection to help maintain colour integrity for longer
- Made from environmentally friendly recycled rubber
- Easy to lay, lightweight and durable for year-round protection across a wide range of indoor and outdoor play areas
- More cost-effective than installation of other safety systems (e.g. wet pour)
- Available in thicknesses from 30mm to 70mm and in a range of colour combinations, including hopscotch game designs

Tile Size	Colour	Price (per tile)
		1+
1m x 1m x 30mm (23kg)	Black, Green, Terracotta	£38.00
1m x 1m x 45mm (40kg)		£44.00

PLAY Rubber Wet Pour

Contact us to find out more about this service

- CE Certified
- Slip Resistant
- Durable
- Reach Compliant
- Virtually Maintenance Free
- Ability to add additional shapes

Grass Matting
For excellent drainage

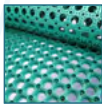

EASI Grass Mat

Economical safety mat with excellent drainage

- Raised studded underside to prevent mats from slipping on grassy or uneven surfaces
- RAPRA tested to critical fall heights of up to 3.4 metres
- Open-holed design helps to reduce risk of slipping, increase comfort underfoot and allow for good drainage
- 23mm thick EASI mats are BS EN1177:2008 certified
- EASI matting is also available in Fire Retardant mats version tested as per BS 5173

Article Number	Tile Size	Colour	Price
1001059	1.5m x 1m x 16mm (5.7kg)	Black	£18.50

1002485

ORBIK Grass Mat

Easy connecting grass mats for large open spaces

- Raised studded underside to prevent mats from slipping on grassy or uneven surfaces
- Smaller open-holed design gives superior anti-slip properties, increases comfort underfoot, allow for greater drainage and helps support grass growth
- RAPRA tested to critical fall heights of up to 3.4 metres
- Moulded rubber connecting hinges securely link mats together in order to safely cover any sized area
- Ideally suited for children's playgrounds or as a permanent grass covering in overflow or off-road parking areas

Article Number	1001308
Tile Size	1.5m x 1m x 22mm (16kg)
Price	£21.50

ARRAY Hollow Matting Roll

The greatest grip in the wettest conditions

- Excellent drainage and easily cleaned making it perfect for temporary walk ways and play parks
- The specially designed non-slip top surface provides excellent grip even in extremely wet conditions
- A flattened, tiled covering provides additionally cushioning underfoot and gives extra fatigue-relief during continued use
- Durable, long-lasting matting rolls make these ideal for quick installation and reapplication in temporary locations, such as events and parties

Article Number	1002484	
Roll Size	10m x 1.83m x 10mm (14.5kg)	
Price (per LM)	1+	10+
	£35.60	£32.04

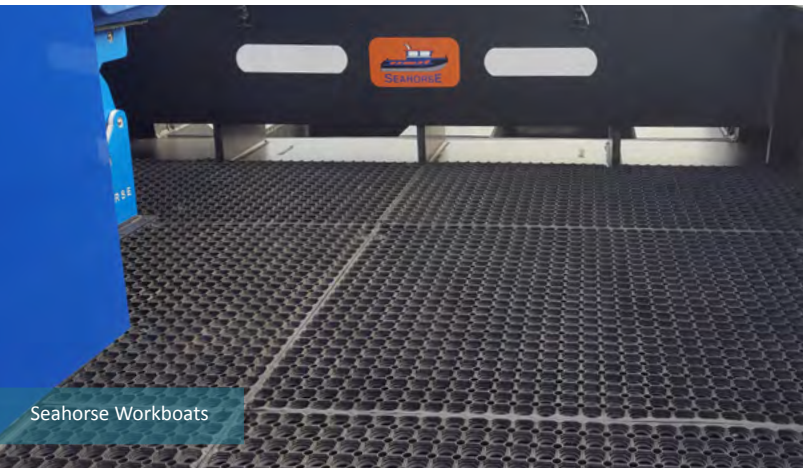

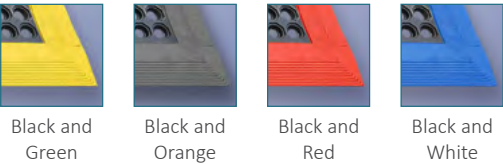

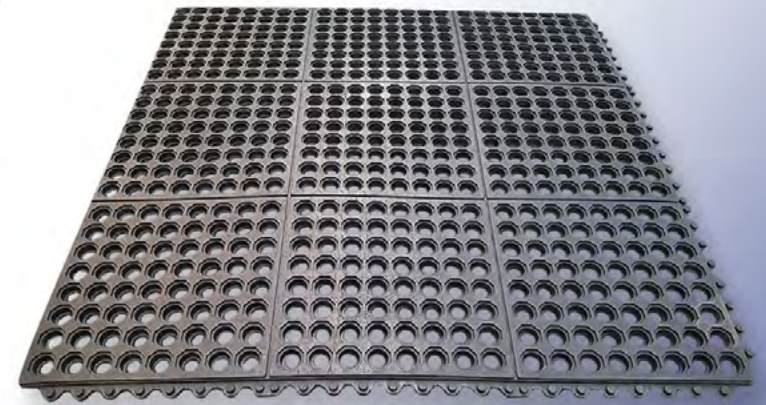

COMBI Grass Matt

Easy to assemble, same great protection

- Easy to assemble, same great protection
- Easily connect individual mats together without adhesive or additional fastenings
- Modular system creates secure, anti-slip surface even in wet or greasy environments
- Raised, studded, underside enables better drainage and aeration
- Comfortable and durable rubber surface helps reduce fatigue
- Ramps available

Type	Colour	Price
Tile	Black	£11.40
Male Edge	Black, Yellow	£7.90
Female Edge	Black, Yellow	

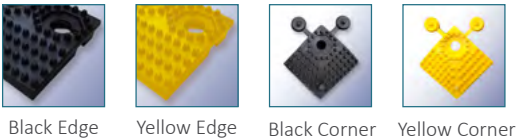

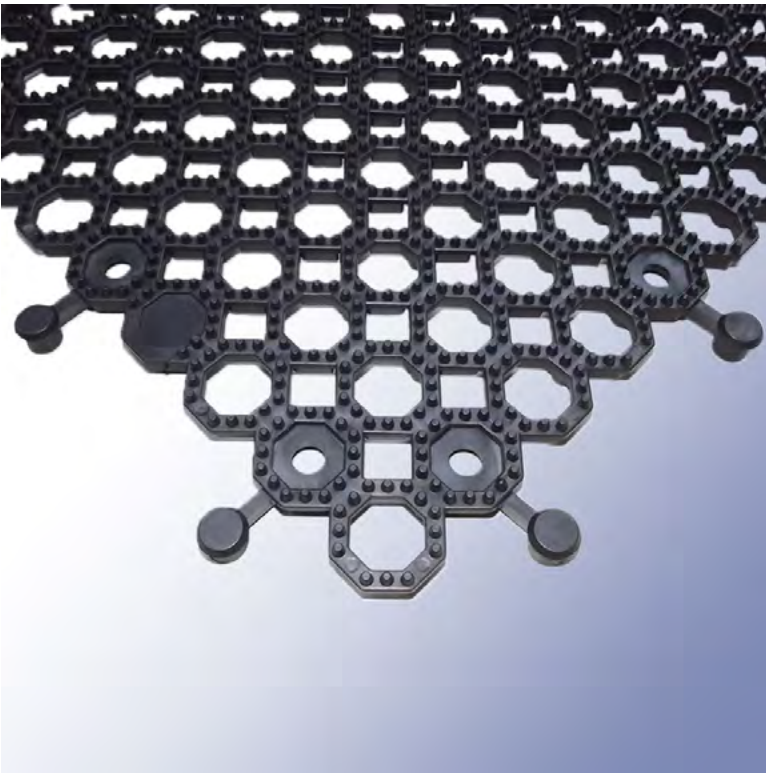

EASI Interlocking Tile

The ultimate slip protection in extreme conditions

- Simple, open grid interlocking tiles are quick and easy to assemble, making them a perfect temporary or permanent option
- Made from 100% REACH compliant recycled PVC for a durable, long-lasting and value for money solution
- Abrasive pimples cover the surface to provide superior grip and help prevent slipping in extreme outdoor conditions
- Tiles also available with high-visibility yellow edging to help reduce risk of tripping
- Chemical, oil and acid resistant

Type	Colour	Price
Tile	Black	£5.30
Male Edge	Black, Yellow	£4.00
Female Edge	Black, Yellow	
Corner	Black, Yellow	

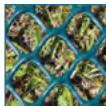

Reinforcement
Stabilising grass mesh

Lattice Grass Reinforcement

Plastic Mesh for stabilising grass surfaces

- Made from black or green fully recyclable, lightweight polyethylene
- For pedestrian traffic and occasional light traffic
- Chemically inert material ensures no contamination will occur when buried in soil or exposed to moisture
- UV stabilised and easy to install
- Ideal for outdoor vehicle access areas, temporary/overflow car parks, footpaths

Green

Article Number	Roll Size	Colour	GSM	Price (per LM)

Grass Mat Installation Accessories

There is a detailed installation video available on our website which shows the proper fixing method for grass mats. Please view the video by clicking here.

Grass Matt Connector

Rubber plug that can be used instead of cable ties for EASI and ORBIK grass mats.

Article Number	1001355
Price	£2.00

Grass Peg

We suggest that two pegs are used to secure short edges and three pegs for long edges.

Article Number	1001723
Price	£0.12

Cable Ties

Rot proof, chemical resistant and UV stabilised cable ties sold in packs of 50 pieces.

Article Number	1001722
Price for 50pcs	£2.50

MAPEI VS90 Acrylic Adhesive

Dry and Flat Surface Not in Contact with Water or Damp

Hard set, highly shear resistant, wet-bed dispersion adhesive, specific for PVC and rubber floorings and wall coverings on absorbent substrates. Also suitable as universal adhesive for all common resilient and textile floor covering types.

Article Number	Max Coverage (m²)	Weight (Kg)	Price
3005023	18	5	£25.66
3005025	55	15	£60.17

MAPEI VZ Contact Adhesive

Flooring for Verticle Applications, Walls & Stairs

- Double coat polychloroprene adhesive in solvent for the installation of floor and wall coverings, where instant bonding is required.
- PVC on curved surfaces or where instant bonding is required;
 - PVC floor and wall coverings, and where instant bonding is required or on non-absorbent surfaces
 - Wood and cork floor and wall coverings with PVC backing.

Article Number	Max Coverage (m²)	Weight (Kg)	Price
3005021	16	5	£55.71

MAPEI G19/G20 Two Part Adhesive

Flat Surface with Contact to Water or Moisture

Two-component epoxy polyurethane adhesive used for bonding rubber, PVC, semi-flexible vinyl sheet and tile, textile and linoleum floor coverings internally and externally on new or existing substrates.

Article Number	Product	Max Coverage (m²)	Weight (Kg)	Price
3005005	G19	4	2	£25.33
3043174	G19	11	5	£43.45

3005003	G20	11	5	£42.64
3005004	G20	22	10	£79.92

Primer, Screed and Accessories

MAPEI Eco Prime T

Acrylic Surface Primer is all purpose primer for interiors to improve adhesion.

Article Number	3005022
Price	£39.95

MAPEI Ultraplan Screed

Fibre reinforced self-levelling compound for the renovation of existing floor substrates.

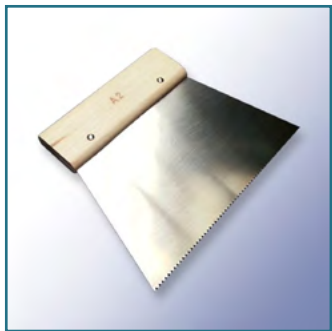

Article Number	3043248
Price	£17.45

MAPEI Latexplan Leveller

Trade levelling & smoothing compound suitable for commercial all applications.

Article Number	1001722
Price for 50pcs	£2.50

A2 Adhesive Spreader

It's easy to apply the correct amount of adhesive with this flooring adhesive spreader.

Article Number	3005008
Price	£4.80

PVC Cove Former

Polymax PVC Cove Former is designed to allow tiles or sheet to be laid up walls.

Article Number	1055201
Price	£2.50

4 in 1 Floor Care Kit

Prepare, protect and prolong. 1 litre bottles with applicator. Individual bottles available to buy seperately.

Article Number	3005010
Price	£25.50

Get in Touch Today

Now that you've discovered everything you need about our flooring and matting range; ordering couldn't be simpler. Get in touch today with one our sales team by calling 01420 558123 or emailing sales@polymax.co.uk. Alternatively, why not head over to www.polymax.co.uk to view our full product range. We offer over 150,000 of the highest quality rubber products.

Remember, if it's made of rubber, we can supply it.

If you've enjoyed our service don't forget to leave us a 5-star review on Google, or let us know through our Twitter, Facebook or LinkedIn pages.
